Key Skills & Specialisms

- ✓ Acquired brain injury, dementia, eating disorders and mental health disorders.
- ✓ Advocating for both service user and their families.
- ✓ Multi-disciplinary team working, liaising with the wider team to ensure proper management.
- ✓ Risk management in several different settings.
- ✓ Advocating for least restrictive practise in an inpatient setting.
- ✓ Ability to work with complex caseloads with dual diagnoses.
- ✓ Organised, diligent, hardworking, and person-centred.

Employment History

In August 2020 I helped set up The Abbi Clinic which is an intensive outpatient service for people with eating disorders to varying degrees. I am the Registered Manager; I work in line with the CQC and health authorities to ensure our service follows standards set by the CQC. We make individual care plans which are regularly reassessed.

In February 2020 I began working with people with brain injuries in a care home setting. I liaise with multi-disciplinary teams to make sure that the service users receive the best care to succeed towards their individual goals. We reassess the goals frequently.

Testimonials:

Eloise is an exceptional problem solver; she was able to address my concerns head on and help me engage in healthy coping mechanisms when facing a hurdle. I honestly felt as though I could confide in her about anything. Not once did I feel judged or like I wasn't being helped or listened to. I will always be grateful for this kindness...

Eloise ensured there was always a backup plan. I attended clinic sessions through Zoom during periods of self-isolation. The sessions were engaging and i benefitted greatly through their flexibility. I felt safe at the clinic with the hygiene protocols in place, relevant PPE was maintained constantly, and I never felt any concerns when I was there. **A service user.**

Experience

- ✓ I have 7 years' experience working as a registered mental health nurse working in both secure and non-secure settings.
- ✓ I have supported individuals with acquired brain injuries.
- ✓ I have worked with individuals with dementia, Huntington's disease, and Parkinson's disease.
- ✓ I have experience with individuals who have difficulties understanding their emotions and can become violent and aggressive.
- ✓ I have experience working with children, adults of working age and older adults.
- ✓ I have worked with adults with dual diagnoses in different settings.
- ✓ I have worked with people under the mental health act, people who do not have capacity and people who have care under best interest decisions.
- ✓ I have supported people with communication issues such as people who have a diagnosis of selective mutism, I have worked with people who struggle with communication due to trauma.
- ✓ I have supported people with autism, attention deficit disorder and dysexecutive syndrome.
- ✓ I have worked with individuals from a range of ethnic and cultural backgrounds.
- ✓ I have worked with large multi-disciplinary teams and ensure that the teams work collaboratively.
- ✓ I am currently a registered manager with the Care Quality Commission (CQC) for an eating disorder day care unit.
- ✓ I have attended appeals on behalf of patients under the Mental Health Act.
- ✓ I have provided evidence and education on eating disorders to section 12 approved professionals to ensure proper care to individuals who required section 2 or section 3 to receive care.
- ✓ I have worked with the Personal Independence Payment claims.
- ✓ I have experience working in end-of-life care.
- ✓ I am a mentor to student nurses.
